ALL SORTS.

—A. C. Cleveland is spoken of for Congress.

—Oliver Roberts, will ask for the nomination for Sheriff this Fall.

—Tom Rickey shipped 185 head of fat cattle to San Francisco yesterday.

—James T. Green has assumed control of the Walker Lake Bulletin.

—A new postoffice has been established at Lake Tahoe called Sunbeam. The location is at the hotel near Sugar Pine Point. D. Kaiser has been appointed postmaster.

—If you have a cold, cough, bronchitis, or any form of throat or lung disease, do not neglect it. Ayer's Cherry Pectoral, if promptly taken, will speedily relieve and cure all ailments of this character.

—An anonymous writer in the Tribune charges Judge Cary with purchasing speared trout. It is not likely that such a charge can be substantiated but if it is, Fish Commissioner Cary should resign.

—News was received here yesterday that R. L. Brown, formerly of this city, and a son-in-law of M. B. Dow, died suddenly at Battle Mountain. He was a member of the A. O. U. W., and also an Odd Fellow.

—The Southern Pacific R. R. Company wants to divide up the remnants of the Julia among the victims of the late disaster. They want litigants to take the old boiler together with the Inspector's certificate of soundness, and call it square.

—Catarrh, when chronic, becomes very offensive. It is impossible to be otherwise healthy, and, at the same time afflicted with catarrh. This disagreeable disease, in its most obstinate and dangerous forms, can be cured by the use of Ayer's Sarsaparilla.

Announcement.

At the annual meeting of the Board of Directors of the Cemetery water works, April 9th, 1888, it was

Resolved, That all persons wishing water for irrigation the present season, will be required to pay for the same on or before May 1, 1888, for the season of five months from May 1st to Oct. 1st.

The Superintendent will not water any lot except on compliance with this resolution.

Political Ground Sluicing.

Hugh Mohan, who goes about with his Chatauqua machine and ground sluices for political movements, has a long letter in the Enterprise in which he shakes up the pay dirt and tears up the whole surface of the diggings. Very few things escape his notice which are now going on.

The Fair.

The citizens' agricultural meeting was very harmonious, and there is every prospect of a Fair this Fall that will eclipse the State Fair. The community is united on the subject, and there is no dissenting voice. Douglas county is also up and alive to the proposition, and will come in here competing strong for the premiums.

Its Efficacy of Flayer

And the efficacy of its action have rendered the famous California liquid fruit remedy, Syrup of Figs, immensely popular. It cleanses and tones up the clogged and feverish system, and dispels Headaches, Colds and Fevers. For sale by Geo. C. Thaxter, Agent.

Arrested For Rape.

Tommy Williams, a lad of 13 or 14 years, has been arrested in Silver City, charged with a crime of rape on a child of A. M. Cromer's. The girl is 6 or 7 years old. Citizens of Silver do not believe the young man guilty.

OUTRAGEOUS.

How the Landbarons of California Swindle the Public.

The big land boom in California has slumped out of sight, but every effort is being made to renew the excitement this Summer. The thing has been a most outrageous inflation of values from the start and coupled with the most downright robbery ever practiced. Some of the lot buyers have purchased paper lots in paper towns, and are unable even to find a foot of land they purchased or else the titles are absolutely worthless.

Men have reached California with \$10,000, got the speculative fever invested all in inflated real estate and to-day find themselves working on ranches for \$20, a month.

The rascals who engineered these swindles ought to be in the penitentiary.

Another thing that is worse than a swindle is to continually blow about the "glorious climate of California."

The climate is simply a humbug. Since the big irrigation schemes have made headway the country has been over-irrigated and as a result the low lands of the State have been turned into marshes and with the hot sun pouring on the saturated soil a miasma rises which sends its death laden vapors over the whole country.

The "one lunged" people of the East when they strike such a climate die off like sheep with the murrain.

In the Fall the over production of fruit works another evil. Thousands of idle men lie around San Francisco too poor to get to the fruit belt because of the high railroad fares and so the fruit rots on the ground and the decaying of so much vegetable matter again fills the air with the fumes of a pestilence, and children die off.

The country is too low to stand so much irrigation, and malaria, fever and ague, and kindred diseases, make short work of those who are not acclimated. In most of the towns of California diphtheria is now epidemic because of the wet season and inadequate sewerage. All these bad features of the Golden State are kept from the tourist, and people who go there for their health soon land in their graves, but if they have made real estate purchases and paid in advance, the cormorants don't care how soon they die.

The way they boom down there has been worse than criminal, and the Appeal proposes to show up these methods in the hope that people will get their eyes open, and cease to be swindled by these conscienceless scamps.

Hard to Please.

Stewart has got his Mineral Land bill through the Senate. If it gets through the House and becomes a law, a number of gentlemen having mines or prospects to sell will find foreign buyers. If the mines prove good we shall see American wealth go to foreign proprietors; if bad, American enterprise and investment will get a black eye in Europe. The scheme is bad in any event.—S. F. Bulletin.

The writer of the above must use a microscope to hunt flaws. If he were in hell (and there is no good reason why he shouldn't be) he would find fault with the devil for stirring up the fire, and then kick if he opened the windows and created too much draft.

It Pays.

"So, you have got a wife?" was asked of a newly married man. "Don't know, don't know," he replied with some hesitation, "sometimes I think I've got her, and sometimes I think she's got me. You see, we have only been married a short time. But when she goes out shopping, we always agree to buy everything we need at Olcovich Bros., all the way from what we eat at breakfast to what we wear when we go out in the evening, and my friend," he continued, "it pays." al,lm

RESURRECTION DAY.

A Local Festival Celebrated in Lundy.

Jim Townsend writes from Lundy regarding the celebration of "Resurrection Day," a local festival recognized in Lundy alone. He says:

"All the miners came down from the May Lundy for the first time since last Fall, to celebrate 'Resurrection Day,' which is a peculiarly local festival. Dancing and feasting, attended with draw poker, have been in order. I entertained a particular friend of mine today as my part of the hospitalities. I gave him all there was in the house, and offered to fry the cat in batter for him. We had trout, rice and curry, macaroni and roast beef (froze all winter), with potatoes and cabbage. There's nothing the matter with that lay-out, is there? But it knocks my bill of fare for about a week, for I'll have to hedge on slappacks and fish till I catch up. Thank God the lake is well stocked—in fact, more than a dozen lakes. I can run out at any time and catch all I want to eat. I suppose you think my cabin is like most miners' cabins—all in a heap; but your screws are loose if you think so. It is as cosy a little den as any bachelor would wish to hibernate in, and the cabin in the upper canyon is just as neat and comfortable. Some of these huskies laugh at me for keeping things so prim, but I prefer to be decent, or at least as decent as circumstances will allow. There is not a man in camp who does not doff his hat when he invades the sacred precincts of this dainty shebang. If he failed to do so I would at once remind him that he was in the presence of an American nobleman and prospective millionaire, besides possible candidate for Nevada Congressman, and be damned to him, the bloody duffer! By rigidly enforcing this rule I have a show to pick up a good hat occasionally."

Fish Spearfishing.

Complaint is made of the manner in which the Indians are allowed to fish in the Truckee river. It is stated that the fish-way at the dam of the reduction works is nothing but a fish trap and every trout which attempts to ascend the stream through it falls an easy victim to the Indian fisherman. The Fish Commissioner or a deputy should attend to the matter at once, as it is almost impossible for a female, laden with spawn, to escape the hooks and grabbing iron of the industrious buck lying in wait. Another drive of fish will probably be made from Pyramid lake in three or four weeks, and unless proper precautions are taken by those whose business it is to attend to such matters will meet the same fate as the present one. This question is one which interests everyone living upon the Truckee river, and Fish Commissioner Cary can earn the good will and opinion of all true sportsmen by giving it his prompt attention.—Reno Gazette.

Pawning's Land Sale.

On the 21st. of April, special free trains will run from this city and Virginia to convey the public to the auction sale of lots in Pawning's addition, Reno.

It is proposed to auction off 250 lots in the addition and there is a very likelihood of a big crowd being there to take a hand in the alluring speculation. The addition was very carefully selected and the only habitable part of the city bordering the river with perfect sewerage Pawning has showed great enterprise in booming his land and inside the year has sold nearly half of the addition. We advise Carson people to go down and 'buy, for money put there will stay inside the State and be a more permanent investment than squandering it in the California land craze which is now making this way.
